Goldmedal®
SWITCH TO THE AMAZING

EXPERIENCE THE *Amazing!*

Goldmedal devices truly live up to their tagline of being "amazing". In many cases, they even go beyond amazing. Why do I say that? I realized that every Goldmedal product has a certain style and finesse about it that makes you want to look at them twice. From the different types of switches and cover plates to the fans to their home automation products and LEDs – everything has an air of precision and balance that inspires amazement.

Personally, I understand how a beautiful scene gets crafted on film. There's the director's vision, there's a group of talented actors, there's passion and creativity on the sets, and there is the brilliance of the supporting cast and crew. I see a similar set of synergy manifesting through the entire product range from Goldmedal.

To me, Goldmedal seems to be locked into this zone where they are always striving to deliver the amazing. It's an endeavor that fascinates me and makes me proud to be associated with. As their brand ambassador, I'm delighted to be a part of their quest to create some of the most amazing products and experiences in this industry. I welcome you to be a part of this journey and experience the amazing along with me.

Saif Ali Khan
Brand Ambassador

Saif Ali Khan

HOME, Smart HOME.

In this ever changing world. one fact has remained constant – our inborn desire to create the home we dream of. With the recent developments and innovations in technology. our wildest dreams can now become a reality. easily. In fact. so effectively has technology evolved in this field. we should no longer say. home. sweet home. It's time we said. home. smart home.

Goldmedal's GWorld KNX automation is one such solution. A collaboration with KNX – the universal standard for smart building technology across the world – GWorld KNX enables you to create the home of your dreams exactly the way you dreamt it. The GWorld KNX automation range has everything you need to upgrade your home. From intelligent switches to interactive touch panels to smart modules and more.

There's more to home automation from Goldmedal though. If you are looking for a completely wireless solution. you can choose GMesh automation. It works on your existing wiring and can carry out all functions without Wi-Fi or even an Internet connection. That's simply amazing. right?

What makes it even more amazing is integrating all this technology into a single platform that can then be controlled using a single app. This leads to ease of use and efficiency in both operations and maintenance. The app thus not only helps you control and monitor your home. it also allows you to modify and add more automated functions in the future. There is so much you can do with GWorld KNX. we can safely say that everything is possible. The home of your dreams is only limited by your imagination.

OUR DNA

Built for today.
Inspired by tomorrow.

For more than forty years, Goldmedal has been at the forefront of innovation in the field of wiring devices. Think modular systems, LEDs, wires and cables, MCBs, DBs, electrical accessories and more. Over these years, Goldmedal has become synonymous with high quality, innovative products in this segment. Our latest foray into the electrical consumer goods segment, with fans, has been a resounding success too.

The reasons for our achievements are not hard to guess. More than anything, it's our adherence to our processes that ensure we deliver only the best on a regular basis. Whether it is product design, manufacturing, packaging, promotion or distribution, at Goldmedal we have perfected these processes through multiple iterations over the years. This continuous calibration has led to the creation of a proprietary process that ensures nothing is left to chance.

Our collaboration with KNX, the world leader in smart building technology, is built on the edifice of these best practices. We are confident that through this association, Goldmedal will be able to bring the latest in connected technology to your doorsteps and beyond. Will it be received as enthusiastically as our previous ventures? Well, based on our belief in our processes, we can say it's almost pre-destined for success.
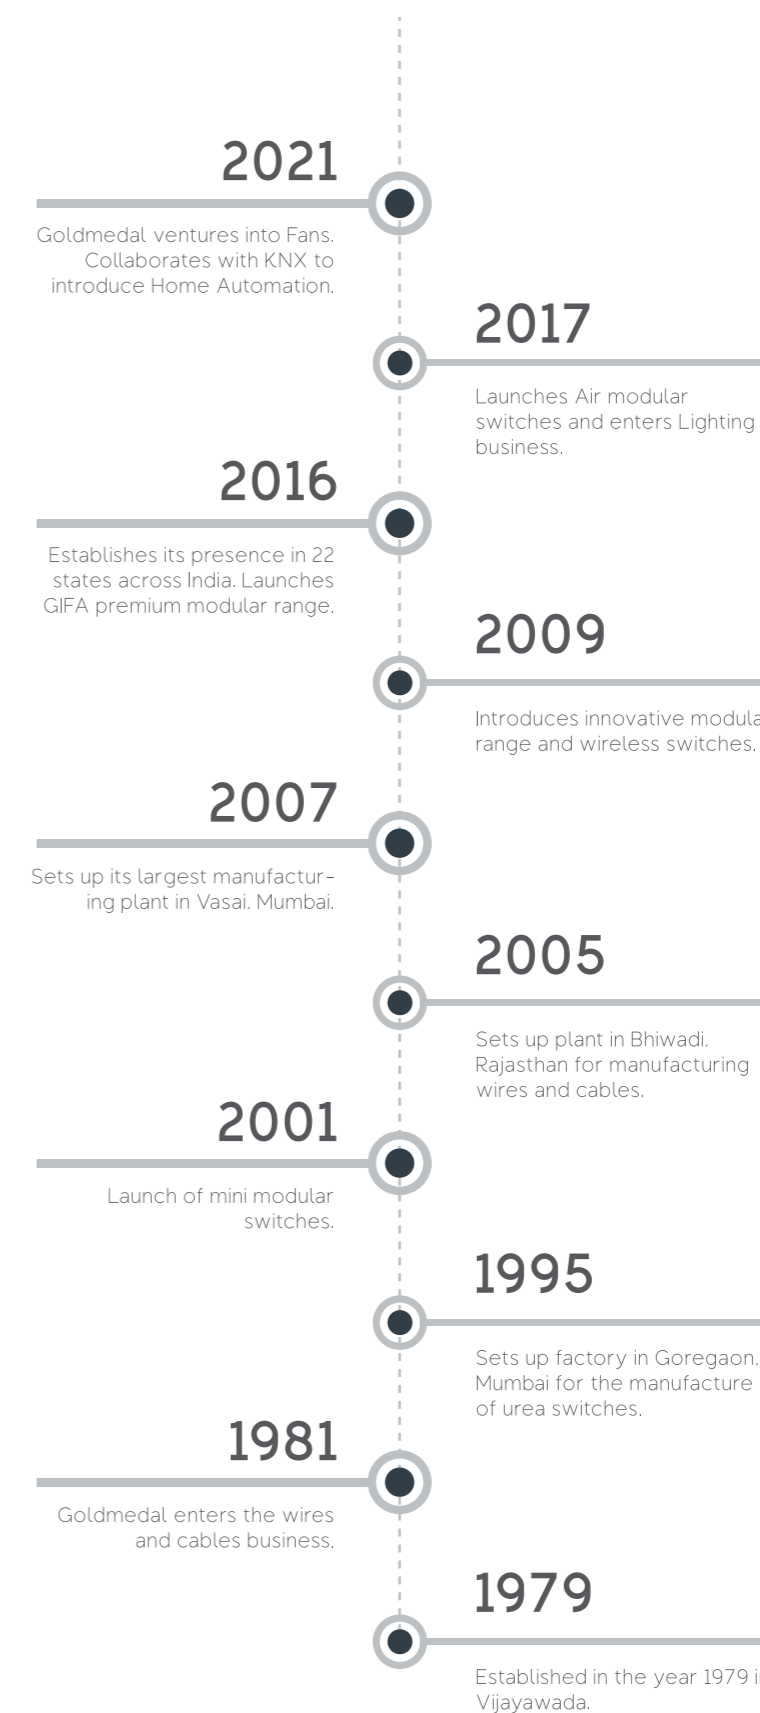

MILESTONES

Back in 1979, life was much simpler. Fuel prices weren't so high. Roads weren't as good. There was more time in our hands. There were lesser people. It was at a time like this that we first started off with Goldmedal, as a retailer for a few of the leading electrical brands of the country. Right from the onset of our journey, our vision was clear— to make a difference to the lives of Indian consumers.

Over time, we ventured into product manufacturing, which enjoyed a tremendous demand from our customers and helped us to widen our scope of activities. Today, we're one of the major manufacturers in the Indian electrical segment with top of the line infrastructure, tool room and testing facilities at our manufacturing units in Maharashtra, Andhra Pradesh and Rajasthan. With our philosophy to channelize efforts in the latest technologies, we have developed products that have lived up to the promise of being amazing! From market research, to the final product, we make sure that ample time is spent on every process in between, however big or small. Because that's the only way to make products that create amazing lifestyles.
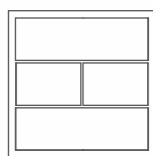

Goldmedal has had an incredible innings so far and have successfully launched and expanded our portfolio. And now we are ready for the next chapter. The future of automated electrical systems with KNX. We welcome you to join us on this journey!

CREATE A LIFE LESS ORDINARY

Lifestyle 09
Keypad with RTC

We connect to our homes at multiple levels. At a physical level, we interact with every nook and corner of the house. We are also connected to our home emotionally – it reminds us of the events of our life – everything that makes us who we are. Our home is also the place where we interact socially with the people that are a part of our lives. Our home gives us a sense of familiarity in a constantly evolving world. However, at the end of it, our home is a passive recipient of our actions and emotions. Imagine if our home could reciprocate. If it could understand our likes and dislikes. If it could sense or adapt. With the Lifestyle 09 keypad with RTC, all of this and more can be possible. Your home becomes an extension of you. In so many interesting, exciting ways. Switch to this amazing lifestyle today. Create a life less ordinary.

Lifestyle 09
Push Button Series

The Lifestyle 09 KNX keypad is the ultimate combination of beauty and brains. Capable enough to control anything from a single light to an entire building, its stylish looks also commands everyone's attention. Available in six, eight, and twelve button variants along with/without Room Temperature Control (RTC), this keypad has a metal finish that is accentuated by its perfectly square shape. Each button on the keypad has dual sensors that can control multiple functions, making it a super-efficient way of controlling electrical devices in your home. Available in a variety of exciting shades and finishes, the Lifestyle 09 keypad is the ideal solution for those looking to upgrade to a more intelligent yet luxurious lifestyle.

A GENTLE PUSH THAT WILL
CHANGE YOUR WORLD

Lifestyle 09
Keypad with 8 Buttons

Crafted from precision cut, high quality metal in matt as well as glossy finish,
the Lifestyle 09 keypad is mesmerizingly simple and elegant in appearance.
Ultra slick in operation, these keypads are super-efficient too – the
keypads can be programmed as per your requirements. What's more, the
programs can be changed to suit your changing needs. The possibilities are
simply limitless. The Lifestyle 09 keypad is available in five metallic shades
that will complement any interior.

ONE WALL.
ONE SWITCH.

Lifestyle 09
Keypad with 6 Buttons

Sleek, minimal, elegant – the Lifestyle 09 Keypad exemplifies the "one wall one switch" concept. Once installed, this keypad is capable of controlling all electrical functions in a room – from individual switch operations to setting up scenes that can control multiple electrical devices with a single touch. The Lifestyle 09 Keypad thus leaves your walls free of the clutter of switches. Your walls can be left pristine, or should you wish, used to exhibit the many delightful artifacts in your home. While the keypad can be operated manually, they can also be controlled via a mobile app for added convenience.

COMPLETE CONTROL.
COMPLETELY WIRELESS.

World class home automation
system without rewiring.

With Goldmedal's GMesh range of products. you can easily convert your home into a smart home without additional wiring. The unique GMesh technology works without Wi-Fi and Internet - you can control your electrical systems through a wall-mounted remote. via 2-module switches or a mobile app. The technology connects with the GMesh Bluetooth controllers within the remote and switches using Bluetooth Low Energy (BLE) technology. It incorporates the latest lighting control technologies like DALI2 and DT8 to give you a variety of lighting control options like selecting RGB. RGB-W. CCT. etc. GMesh thus gives you all the advantages of wireless technology with the stability of wired home automation technology.

Lifestyle 90
Bluetooth Control panel

SMART IDEAS.
SMARTER HOMES.

The GMesh mobile app enables you to program and control your Bluetooth system. Simple and intutive to use. you can easily change Scenes, create Master Functions, define Schedules, and make as well as control animations. You do not have to seek the help of any programmer or specially trained electrician. What's more, you can even insert pictures to represent the lights and fixtures for a more user-friendly experience. The app also allows you to define access levels for different users so that everyone does not have the same level of access to the functions within your home. Download the GMesh app to convert your home to a smarter home, today!

Lifestyle 90
Bluetooth Control panel

Lifestyle 90
Enocean Switch Insert
4 function

The GMesh Lifestyle 90 Bluetooth control panel can be used as both a remote and a switch. Install the magnetic pad on a wall to use it as a switch. Unplug it and carry it wherever you want to use it as a handy remote. Imagine changing the mood of your room by using this remote to control your lights. It's that simple and amazing! Complementing the Lifestyle 90 Control panel is the 2 Module Switch insert. This insert can be used in your existing switch plates or it can be kept besides you as a remote – both options do not require additional wiring. You can easily control the GMesh system with either of these panels. And you can do it on your own – there is no need for any electrician or programmer to help you do it!

Bluetooth Controller

GMesh products can handle DALI, Tunable White, RGB & RGB-W control, Human Centric Lighting Control and is also ready for all future upgrades. While this may sound complex, it will surprise you to know that G-Mesh commissioning and set up is so simple that even a child can do it! Yes, even changing a lighting scenario is a simple task.

A2D0001 is a BLE-enabled 2 channel 0-10V or DALI controller. It has a universal 100-277V AC input voltage range and can control 2 separate analog channels, 1 Tunable White channel, or one Dali channel.

PWM0004 is a BLE-enabled four-channel PWM dimmer for constant voltage LED loads, such as LED strips and constant voltage LED modules. The same device can be used for both 12 and 24V DC LED strips. Separate drivers are not required for LED strip or RGB Strip dimming.

REL0004 is a BLE enabled 4 channel relay with 4 separate inputs to control BLE device on the network. The 4 inputs can be freely programmed to do operations like Dimming, curtains, master functions etc. The device can be used for curtain control also.

IT'S A SWITCH.
IT'S ALSO A REMOTE!

The GMesh remote controller is a switch-cum-remote control. You can fix it to a wall or a table and thus use it as a switch (wirelessly), or you can take it with you and use it as a remote control.

Goldmedal's GMesh technology gives you the comfort of a wired automation system without changing the existing wiring in your home. From switching to dimming to controlling fans and curtains, to RGB lighting control to tunable lighting control, everything is possible with GMesh.. Add the Bluetooth based devices to your existing network and its done. You do not need a Wi-Fi or an Internet connection to control your room functions. Just switch on Bluetooth on your mobile phone and connect to your home network!

DCS0001 is a BLE-enabled DALI controller. It does not have its own power supply. Instead, it is powered directly from a DALI bus. DCS0001 can be used with a DALI sensor for presence detection or daylight harvesting or it can be used for controlling Human Centric Lighting (HCL).

TED0001 is a BLE-enabled trailing-edge dimmer for operation of incandescent lamps, dimmable LED lamps, and dimmable LED control gear. It can be installed in the ceiling, inside a luminaire, or into a ceiling outlet box.

ASD0001 is a BLE-control unit for LED drivers with 0-10V, 1-10V, or DALI dimming interface. The control output can be configured either as analogue 0-10V (and 1-10V) or as a digital standalone DALI control interface.

SAFETY THAT
DOESN'T
COMPROMISE ON STYLE.

Now, see who's at your door even if you are not at home. Yes, with Goldmedal's i-secure IP door phone, you can view the person at the door, talk to them, and even unlock the door for the visitor from wherever you are. You can use the KNX Touch Panel or the mobile app to do so. You can use both the systems simultaneously. It's simply the easiest way to ensure complete safety and control over your premises.

GWORLD | KNX MEMBER

HELLO.
YOU ARE WELCOME.

Integrate this smart IP video door phone with in-built Wi-Fi function to manage visitors at your home or building. You can either use an indoor unit to see and communicate with your visitor or integrate it seamlessly with your existing KNX Touch Panel. The two-way communication system enables you to visually and verbally interact with your visitors and even open the door. You can even open the door if you are not physically present in the room.

Technical Parameter

- 8 Universal Inputs
- Potential free inputs
- Freelyprogrammable
- KNXBus powered

Technical Parameter

- Voice control over Apple, Google & Alexal
- Built-in mobile App over Android & Apple devices
- KNX on Board, IP Interface not needed.
- 24 VDC Aux. power

Technical Parameter

- KNX on board
- Voice comands over google home/amazon alexa
- IP to IR control
- AV control over IP
- Compatiable with Android & Apple

Technical Parameter

- 2x2x0.8 sqmm
- TP1 pvc cable
- Non armoured cable

Actuator
2 Channel flush mounted
FMI0002

Actuator
12 Channel Multi Actuator
ACT0012
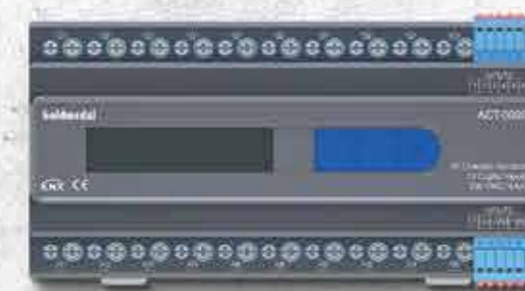

Actuator

ACT0020

GL-KNX-ACT-0012

12 Channel Actuator
12 Digital Inputs
230 VAC/16A/C

Actuator
12 Channel Multi Actuator

Technical Parameter

- NO/NC Contact selection
- Data Convertors on board
- Switching , Blinds and shutter control
- 12 Potential free inputs
- Scene & Logic Operations
- LCD Dispaly for Inputs & Outputs
- KNX Bus Powered

Highlights

- 2, 12 & 20 Channels.
- 12 Potential free inputs on board.
- Switching, Curtains, Blins & HVAC control
- LCD Display with Manual control
- KNX bus powered

KNX
Multi Switch Actuator

2, 12 & 20 Channels

The Multi-Switch Actuators are invisible as these are fitted in Automation DB.but carry out the all important task of controlling our Electrical Appliacnes over KNX. Be it Lighting or Blinds or Curtains these are seamlessly integrated into the system.
One device can work both for Switching or Curtain control reducing the need for extra devices.

![Goldmedal SWITCH TO THE AMAZING]

Dali Gateway Premium
2 Channel, DT8
DLC-02-KN

Dali Gateway 1 Channel
DA0001

4 Channel Triac Dimmer-300W
DMG0004

4 Fold 0-10V/1-10V
Dim-Switch Actuator 10A
ADM0004

Functions

• Integration of Dali Devices into KNX System.
   Premium model with DT6 & DT8 control

Technical Parameter

• DALI / DALI 2 (DT6 & 8) compatible
• Switching, Dimming & RGB Colour control
• Upto 128 Dali drivers in one device
• Scene control
• RGB, RGB-W, CCT control
• 1 & 2 Channel Options
• 4 Relay contro on boardz
• KNXbus powered

Functions

• Integration of Dali Devices into KNX System.

Technical Parameter

• DALI Compatible
• Switching and dimming
• Upto 64 Dali drivers in one device
• Scene control
• 1 Cannel
• KNX Bus powered

Functions

• For switching &Dimming 220 VAC powered
   ECG, Halogens & Lamps.

Technical Parameter

• 4 Channel/ 300 watts
• Trailing Edge dimmer
• Suports trailing edge driver
• Scene control
• Manual Operation
• KNX Bus powered

Functions

• For Switching & Dimming Analog drivers with 0-10
   or 1-10v

Technical Parameter

• 4 Channel Analog Dimmer / 10A
• Switching and dimming using 0-10, 1-10v
• Seperate Relay for Power control
• Scene control
• Manual Operation
• KNX bus powered

LCM-25

PWM-120-12

PWM-120-24

Item description

- LCM-25 – For Analog Dimmimg
- LCM-25 DA – For Dali Dimming
- LCM-25 BLE – For Bluetooth Dimming (Casambi)
- LCM-25 KN – For direct KNXDimming

Item description

- PWM-120-12 – For Analog Dimmimg
- PWM-120-12 DA – For Dali Dimming
- PWM-120-12 BLE – For Bluetooth Dimming (Casambi)
- PWM-120-12 KN – For direct KNX Dimming

Item description

- PWM-120-24 – For Analog Dimmimg
- PWM-120-24 DA – For Dali Dimming
- PWM-120-24 BLE – For Bluetooth Dimming (Casambi)
- PWM-120-24 KN – For direct KNX Dimming

Technical Parameter

- 25 watts CC Driver for LED
- Current selection from 350mA to 1050mA
- 47-63 Hz frequency
- Standby powercomsumption < 0.5W
- Overload / Over temperature protection
- Dimension: 105*68*23mm
- Make – Meanwell

Technical Parameter

- 120 watts CV Driver for 12V DC LED strips
- Dimming range 0-100%
- 47-63 Hz frequency. Input Voltage:90-305 V
- Standby powercomsumption < 0.5W
- Overload / Over temperature & Voltage protection
- Dimension: 191*63*37mm
- Make – Meanwell

Technical Parameter

- 120 watts CV Driver for 24 V DC LED strips
- Dimming range 0-100%
- 47-63 Hz frequency. Input Voltage:90-305 V
- Standby powercomsumption < 0.5W
- Overload / Over temperature & Voltage protection
- Dimension: 191*63*37mm
- Make – Meanwell
