**The reliable
partner for
intelligent
solutions.**

Our vision

Hager Group's vision is to make life on our planet safer, cleaner and more enjoyable through ingenious, sustainable and reliable electrical infrastructure solutions, for all kinds of buildings.

Our world today and tomorrow

We're constantly reimagining electricity in order to meet the world's rising energy demands with better performing and less consuming products and solutions. We're also moving at pace with technology as electricity usage becomes 'smarter' in homes and buildings and yet one thing endures in all this fast-moving change, we will always produce and supply for you safe and simple solutions and products. It's what we have been doing for over 65 years.

Big enough to matter, small enough to care

As a global player, we play in every domain of the electrical infrastructure world; energy distribution, energy management, e-mobility, cable management, wiring accessories, connected and automated homes. We have you covered and our products and solutions are almost always customisable should you desire. We've built a reputation for high quality, scalable and dependable European-made products that are tested, trusted and ready for all types of buildings large and small, so you and your customers can rest assured your installations will endure over the long term.

Generational approach

As a family-owned business that prides itself on being easy to work with, finding solutions in the spirit of collaboration, cooperation and co-creation is how we enjoy working on a daily basis, it's how we feel business is done best and how end results are best achieved together.

Because we're driven by an entrepreneurial flair in a world where people like you matter to us, so much so that we'll be by your side right through your projects and beyond. No matter what, Hager will go the extra mile for you to meet your requirements.

Looking ahead

We are investing on a large scale to ensure you will always get the best from us with huge investments in production capacity and at distribution sites but also developing new and exciting products in our new research and development centres to meet the joint challenges of energy consumption and the environment. As much as the world changes we'll never change our approach to you, our customers, we'll always be with our customary support and learning platforms continuously available for you, with you.

hagergroup

Hager Group is a leading provider of solutions and services for electrical installations in residential, commercial and industrial buildings with 12,900 employees generating € 2.8 Bn in sales (2022). Components and solutions are produced at 20 locations around the globe and are distributed to customers in more than 100 countries.

On our journey to a sustainable future

At Hager Group, we shape the electric world of tomorrow, a world in which long-term success goes hand in hand with sustainability.

For us, sustainability encompasses Ethics, Employees and the Environment. We call our approach E3. This embraces an ethical approach to business, an inclusive and healthy work environment and reliable products and ingenious solutions which are future-proof. With a strong focus on the environment, we're on the way to making our company a low-carbon operation. We want to take our employees, partners and customers with us on this journey. Let's make better choices together. For our planet and for all generations.

Ethics

We put a strong emphasis on a responsible approach towards business. This approach considers our own employees as well as every person involved in our value chain: from suppliers and their employees, to partners and customers. As we produce electrical equipment and solutions, consumer safety is one of our main concerns, as well as business and data integrity. We are committed to complying with all national and international industry standards and in many instances go above and beyond what is required. Since 2007, we are signatories of the United Nations' Global Compact.

Employees

Recruiting and retaining talent is one of the great challenges of businesses today. For us, a sustainable business is only possible if we can attract the right people who feel welcome and able to fulfil their potential at Hager Group. We see our company as a cross-generational endeavour, much like a family. With life-long learning opportunities and opportunities to build a meaningful career we're offering our employees the ideal basis from which to fully engage in a long-term and fruitful mutual relationship with our company. It goes without saying that diversity and inclusion and equal opportunities are part and parcel of our recruitment policies.

Environment

We are committed to reducing waste and emissions considerably by investing in an environmentally friendly design, the longevity and quality of our products and more sustainable solutions in production and distribution. We perform full life cycle analysis of all our products in the form of a Product Environmental Profile (PEP). At production level, we are continuously looking for ways to reduce our resources consumption. Currently, 18 of our production facility locations and 4 of our distribution centres are certified to the international environmental management standard ISO 14001, which defines globally recognised requirements for environmental management.

Building the electrical world of tomorrow together

Let's accelerate our energy transition towards more renewables, electric mobility and energy management.

Daniel Hager
Hager Group CEO

Dear customers, partners and friends of Hager Group

We are living through a time of change. The new geopolitical and market environment makes us realise even more how precious our resources are and how important energy is to our way of life.

The recent developments call upon us to further accelerate our energy transition. More renewables, more electric mobility, more energy management. More than ever we understand what "the future will be electric" really means. This necessary change is a possibility for our industry as a whole.

Energy scarcity makes us appreciate energy efficiency and management in a new way. Our industry plays an essential part in providing the products and solutions to master these challenges. We sit at the heart of shaping the electrical world of tomorrow, a world in which long-term success goes hand in hand with sustainable practices. The current challenges make us all the more determined to ignite this change ourselves - together with our partners and customers.

There is a special strength in pulling together, in finding common ground, in talking to each other and understanding what the other party needs most and how we can support each other. Together, we form a strong network, able to master the challenges ahead of us now and in the future. Of this I am convinced.

I remain optimistic. The challenges are immense. But I don't know of any other industry for which this era of change is such a great opportunity. We have it in our hands to prove ourselves and to build a great future for our industry.

A handwritten signature in black ink, reading "Daniel Hager". The signature is stylized, with a large, sweeping 'D' and a horizontal line extending from the end.

Yours sincerely,
Daniel Hager

Description	Pack Qty.	Unit MRP (₹)	Cat. Ref.
Green, 1 module	12	1027	► SVN121
Red, 1 module	12	1027	► SVN122
Orange, 1 module	12	1027	► SVN123
Blue, 1 module	12	1027	► SVN124
Red+Green indicator, 1 module	12	1325	SVN126
Red+Green+Orange indicator, 1 module	12	1458	► SVN129
Red+Orange+Blue (RYB) indicator, 1 module	12	1919	► SVN222

SPN ACCLs

Characteristics:

- IEC 60947 - 3, IEC 60947 - 6
- SPN Modular
- Voltage: 150VAC to 300VAC
- 6000 Operations

- Blinking LED for overload and permanent LED for overload Trip
- Different LED colors for clear differentiation between functions

Mains 63A, Genset 63A	1	31831	▶ EKT663TG

Characteristics:

- Complies with IEC 60947-2
- Poles: 3 pole and 4 poles
- Thermal Magnetic units
- Calibrated at 50°C
- Frequency: 50Hz
- Current Limiting type (Cat A)
- Breaking Capacity: 18, 25, 40 kA
- Isolation marking
- Complete range of accessories
- International Certification and approvals

Electromechanical time switches

Characteristics:

- Standard: IEC 60730
- Programming by captive segments
- Battery reserve of 200 hrs.
- Manual over ride function
- Sealing of cover to avoid unwanted modifications

Description	Pack Qty.	Unit MRP (₹)	Cat. Ref.

Formula for Calculations :

Incomer Rating : Single Phase = $\frac{\text{Total Load in Watts}}{230 \text{ volts} \times \cos \phi}$

Three Phase = $\frac{\text{Total Load in Watts}}{\sqrt{3} \times 415 \text{ volts} \times \cos \phi}$

Cable selection chart

Single core cable (Flexible) voltage grade 1100 V, conforming to IS : 694-1990

Nominal area of conductor	Current carrying capacity as per IS:3961	Max. Resistance per km. at 20°C
Sq. mm.	Amp.	Ohms
1.0	11	19.50
1.5	14	13.30
2.5	19	7.98
4.0	26	4.95
6.0	31	3.30
10	42	1.91
16	57	1.21
25	71	0.78

* The given data is only for guidance and may vary for different manufacturers.

Permanent over voltage is a common problem faced by users due to external or internal factors. Over voltage is caused due to following:

- Over voltage from electricity board
- Loss of neutral or loose neutral wire termination
- Wrong Connection like Interchange of P & N conductors in RYBN wire
- Harmonics

Phase – Phase voltage during loss of neutral

Hager MZ209 continuously monitors the voltage between phase and neutral conductors. As the voltage increases beyond 267VAC (240VAC + 10%), MZ209 immediately disconnects the power supply through the connected MCB thus avoiding the damage to the equipments. This ensures safety both in case of presence and absence of people at home.

Safety to human and expensive electronic equipments

Connections:

MZ209 is mechanical connected with mcb and does not need any tool for coupling with the MCB. Electrical connections are made with small size wire of 1sqmm from Phase and Neutral conductors in parallel. Phase and Neutral can be connected to either side of MZ209 and only one number per phase is required for protection against over voltage problems.

Single Phase connections

Connections:

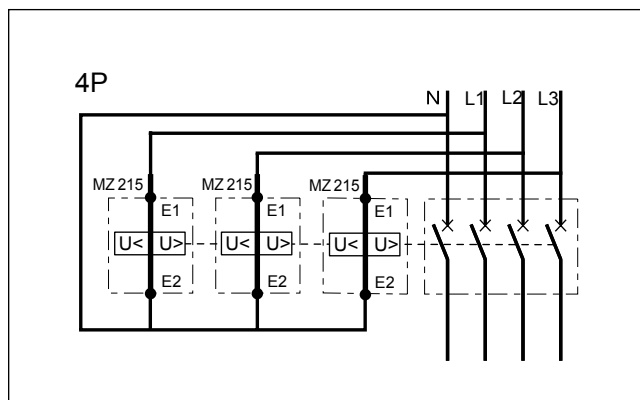

MZ215 is the ideal solution to protect equipments from over and low voltage problems. Unique modular design and simple wiring makes it convenient to mount in standard enclosures with Hager MCB, RCCB or RCBO. MZ215 continuously monitors voltage between Phase and Neutral to disconnect when voltage is high or low.

Single Phase connections

Three Phase connections

Three Phase connections

Terms & Conditions

- Price means Maximum Retail Price (M.R.P).
- This price list supercedes all previous price list.
- Price is in Indian Rupees (₹) and inclusive of GST / taxes / duties as applicable.
- Delivery term is "Door Delivery".
- Prices are subject to revision without notice. All dispatch will be as per price prevailing on the date of invoice.
- Enclosures / Distribution Boards have the provision for fixing the component as shown in the photograph.
- For all Insysta Color references and real material, a minimum ordering quantity will be applicable. Please connect with sales representative for details regarding MOQ.
- All the products listed in the price list carry a warranty, against manufacturing defects for a period of 24 months from the date of invoicing.
- The warranty is however subject to proper usage and maintenance and does not cover defects arising out of improper installation, inefficient maintenance, faulty operation and wilful or accidental damage including nonperformance, which is caused by an event constituting Force Majeure, i.e. including (but not limited to) pandemic, fire, floods, administrative orders etc.
- Hager and / or manufacturer shall not be liable for any consequential loss, including personal injury or damages arising out of, or in connection with, defects in the Products including claim by third party.
- Proof of purchase to be retained to avail warranty.
