

SWITCH TO A BETTER WORLD

JUST IRON

JAN 2024

Turning
your
dreams
into a
comfortable
reality

Everything began with a dream to make comfort a reality. With passion, diligence, commitment and honesty we created wonderful things for a better world. We began with switches and accessories, moved on to LEDs, and then gradually progressed towards fans and automation, touching every metaphor of a good smart home. We are now proud to introduce the latest addition to the appliances category - Irons that will carry the GM logo.

With proper research in design and material, GM Irons have been developed keeping in mind correct proportions, and less-is-more philosophy. Artists with tremendous experience in the industry, work with crisp precision on every product.

We believe in sustainability based on the simple premise that if something is well made and beautiful it will have a long and useful life. By sourcing local materials and components we are supporting our environment, community and economy. We continue to follow our aspiration to provide a product that will last as a mark of fine innovation and technology.

Welcome to the world of new innovations

I have always been fascinated by GM's idea of constant innovation. Being an integral part of GM, I can assure you of its high-quality standards and its dedication to serve you. GM's newest products in the category of appliances such as Dry Irons and Steam Irons have a profound potential of fully augmenting your living experience. I therefore, insist on making the elite choice in technological innovation for your cherished homes and empower you to relish the luxury it concludes.

Irons designed to impress

Designer Dry Irons

The GM Designer Dry Irons are a combination of beauty on the outside and power on the inside. Crafted to deliver a hassle-free ironing experience, the Orca, G-Wave, and G-Cruise are perfect irons for every household.

The era of creaseless clothing

Inspired by sea waves, the G-Wave has an elegant design and ensures efficient ironing with its non-stick, dual-layer coated soleplate. The light-weight iron with its ergonomic handle makes ironing comfortable. Additionally, the 6-fabric-setting function keeps your clothes safe and crisp.

The iron that your clothes deserve

Steam Iron

The GM Steam Irons are an absolute game changer. A product that combines the traditional steam ironing with contemporary vertical ironing convenience, these steam irons are a result of extensive research with keen focus on providing wholesome ironing experience.

Pamper your clothes

The G-Swift Steam Iron accommodates a wide range of fabric types, from delicate silks to sturdy denims. With its sleek design, comfortable grip, and 360° swivel cord the iron glides effortlessly across any fabric, making the ironing process feel like a breeze. Its vertical ironing feature adds to the comfort quotient of ironing. Its self-cleaning feature makes it the superhero of modern ironing.

N O T E S

To make a better world, make life simpler.

We are unwavering in our commitment to a set of core beliefs. It extends beyond merely innovating products; it encompasses every action that resonates with the people and the environment we engage with. We recognise our responsibility to approach things distinctively and improve upon existing methods. Here are a few initiatives we have already set into motion.

CLIMATE IMPACT

At GM Modular, we champion the Climate Impact cause. In our pursuit of sculpting a cleaner, better world, we've embarked on a strategic policy initiative. Our commitment lies in harmonising operations and strategies with environmentally friendly principles.

RECYCLE

Our ongoing mission is to maximize efficiency while minimizing waste. We diligently strive to utilise recyclable resources in our processes. Whether it's reclaiming tiny metal pieces or mitigating environmental impact in production, we are dedicated to the thoughtful reuse of materials.

LOCALLY SOURCED

We encourage the use of locally sourced materials over imports. This increases supply chain efficiency and reduces soaring transport costs, thereby contributing to a significant decrease in CO₂ emissions.

BETTER HOME ENVIRONMENT

A healthy home environment is paramount for overall well-being. Beyond ventilation and construction materials, the elements inside your home play a crucial role in shaping its indoor atmosphere. At GM, we prioritise the exclusion of any harmful raw materials that could potentially compromise the health and well-being of those within.

CERTIFIED

In our commitment to empowering consumers and help them make informed choices for a healthier lifestyle, GM products have obtained safety certifications from reputable authorities worldwide. Rigorously tested for functionality, our products meet stringent standards to ensure the well-being of our users.

Harmonizing design and technology

The GM product range sets standards in design, function and technique. GM offers high-quality design, attractive colours and numerous intelligent functions with switches and automation. Our intent is to raise the quality of life and therefore, all products are designed to harmonize perfectly, with each other. From switches to socket outlets, from music technology to home automation, the use of GM products is not only attractive, but also convincingly comfortable. Having clear operating instructions in our packaging with the most important technical data assists in the safe and faultless installation of every GM product.
